LEGRAND® MAKES LIFE EASIER

We are convinced that connectivity must continue to increase the value of homes, offering an enduring boost in usability. That's why Legrand Group cultivates the extraordinary utility of technology.

Eliot, the Legrand's Program dedicated to the Internet of Things, has a new born: Valena™ Life/Allure with Netatmo. From a collaboration between Legrand and Netatmo¹, Valena™ Life/Allure with Netatmo has arrived to make everyday life more comfortable, secure the home and family and facilitate energy savings.

LET'S HAVE A FULLER LIFE TOGETHER.

A NEW
PLAY

With Valena™ Life/Allure with Netatmo, it's child's play to have a connected home. Imagine that your home obeys your touch and voice. That you can shape how it behaves. And that your home helps you monitor and save energy and keep your family secure.

MAKE YOUR HOME MORE SECURE

Close your home uptight with one touch. Simulate your presence when you are away and be notified of abnormal activity on your smartphone.

USE LESS ENERGY

Manage your energy consumption without thinking and save energy, and money, every day.

TELL YOUR HOME WHAT YOU WANT

Now your home obeys your voice. Just command Siri, Alexa or Google Assistant to turn on your lights, adjust your heating, secure your home...

ENHANCE YOUR AUTONOMY

Protect your comfort and autonomy at home. Control your lights, thermostat, roller shutters, appliances, by voice or remotely with a tablet or a smartphone.

EASY TO INSTALL

It's easy to replace any of your standard outlets or switches with a connected outlet or switch. There are no unsightly holes, no additional wiring. You can even stick the wireless switches wherever you want, thanks to their repositionable adhesive. Then, setup them all up in no time using the Home + Control App on your smartphone or tablet. Whether your home is from the last century or you're just building, your life can become simpler and more intuitive.

EASY TO USE

Lighting, heat, roller shutters... All your home comforts will obey your touch and voice, individually or together. The possibilities are endless. Want a relaxing shower at the end of an episode of your favorite series? Tap to turn up the heat in your upstairs bathroom, without leaving your couch. Then, once the credits roll, say simply, "Ok Google, turn off the television and lower the lights", and go upstairs without a thought.

EASY TO CONTROL

Arms full, in the shower, in the yard or at the other end of the world... Anytime, keep control of your home with a tap or a word. And when you aren't there, keep an eye on your house at all times. If ever there's a problem, such as a power failure or overconsumption, your smartphone alerts you.

HOME + CONTROL

Control your home wherever you are with your smartphone, tablet or laptop.

iOS : Valena Life/Allure with Netatmo requires an iPhone, iPad, or iPod touch with iOS 9.0 or later. To control this HomeKit-enabled accessory, iOS 9.0 or later is recommended. Controlling this HomeKit-enabled accessory automatically and away from home requires an Apple TV with tvOS 10.0 or later or an iPad with iOS 10.0 or later or a HomePod set up as a home hub.

ANDROID : Requires Android 5.0 and higher with access to Google Play.

iPhone, iPod and iPad are registered trademarks of Apple Inc, registered in the US and other countries. HomeKit is a trademark of Apple Inc. App Store is a service mark of Apple Inc.

SAFE

ALWAYS ON DUTY...

Your connected home never lowers its guard. You can always count on Valena™ Life/Allure with Netatmo to watch over your home and your family. With just a touch, lower the shutters and activate the alarm. When you're away, your connected home simulates your presence, shows you what's happening and alerts you immediately on your smartphone if something is unexpected. And each new device integrates easily into your system for an even more comfortable and secure home.

Connected power outlet

Remotely control your home appliances and be notified of abnormal activity on your smartphone.

Connected roller shutter switch

You can control your roller shutter locally, by voice or remotely by the Home + Control app.

... EVEN IF YOU NEVER SEE IT

A simple and intuitive user experience cleverly hides the rich technological possibilities of Valena™ Life/Allure with Netatmo. Discrete, your connected switches and outlets replace your current material, quickly and without mess. You can start with just one room or connect your entire home. Or start with just your lights or your roller shutters. In any case, you can easily expand your system by gradually adding more connected outlets and switches, depending on your desires and budget.

Home / Away wireless master switch

When you leave home, switch off the lights, close all the shutters and turn off selected home appliances with a single touch.

INVEST A LITTLE

A connected home has never been so accessible. The starter pack and each additional product or pack can be purchased separately and integrated easily. Valena™ Life/Allure with Netatmo works with the largest brands and platforms – like Apple HomeKit, Google Home, Amazon Echo, Somfy, Bubendorff, Netatmo or IFTTT – enabling you to add third-party products to your system to enrich its functionalities even further.

SAVE A LOT

Improve your comfort, even while saving energy. The application Home + Control allows you to visualize your consumption in great detail: at that particular moment or over time; for a specific light or appliance, or for all of them together. That detail can help you optimize your energy savings.

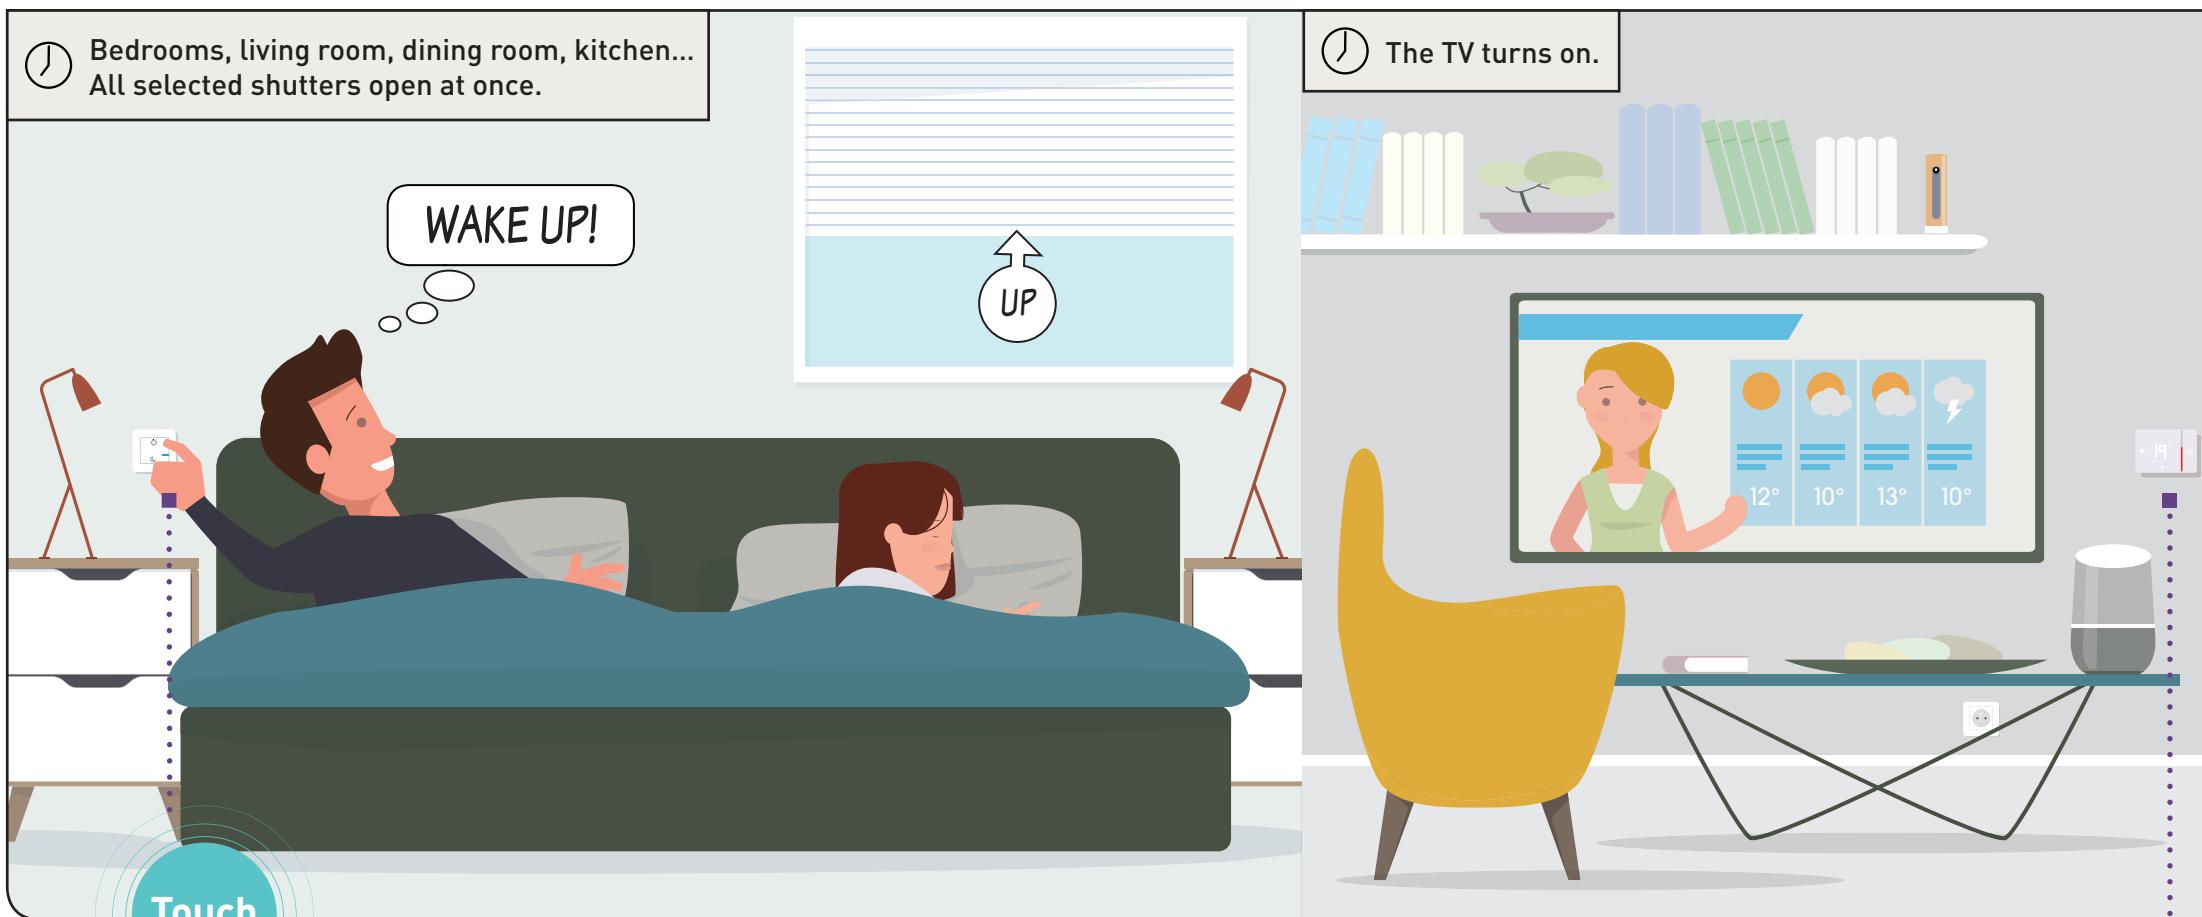

HOME + CONTROL
Track your consumption easily and be notified of anything strange.

Life scene 1

TIME TO GET UP

I'M STARTING MY DAY

Touch

WAKE UP / SLEEP WIRELESS SWITCH

Launch your wake-up scenario with a single touch on the wireless switch.

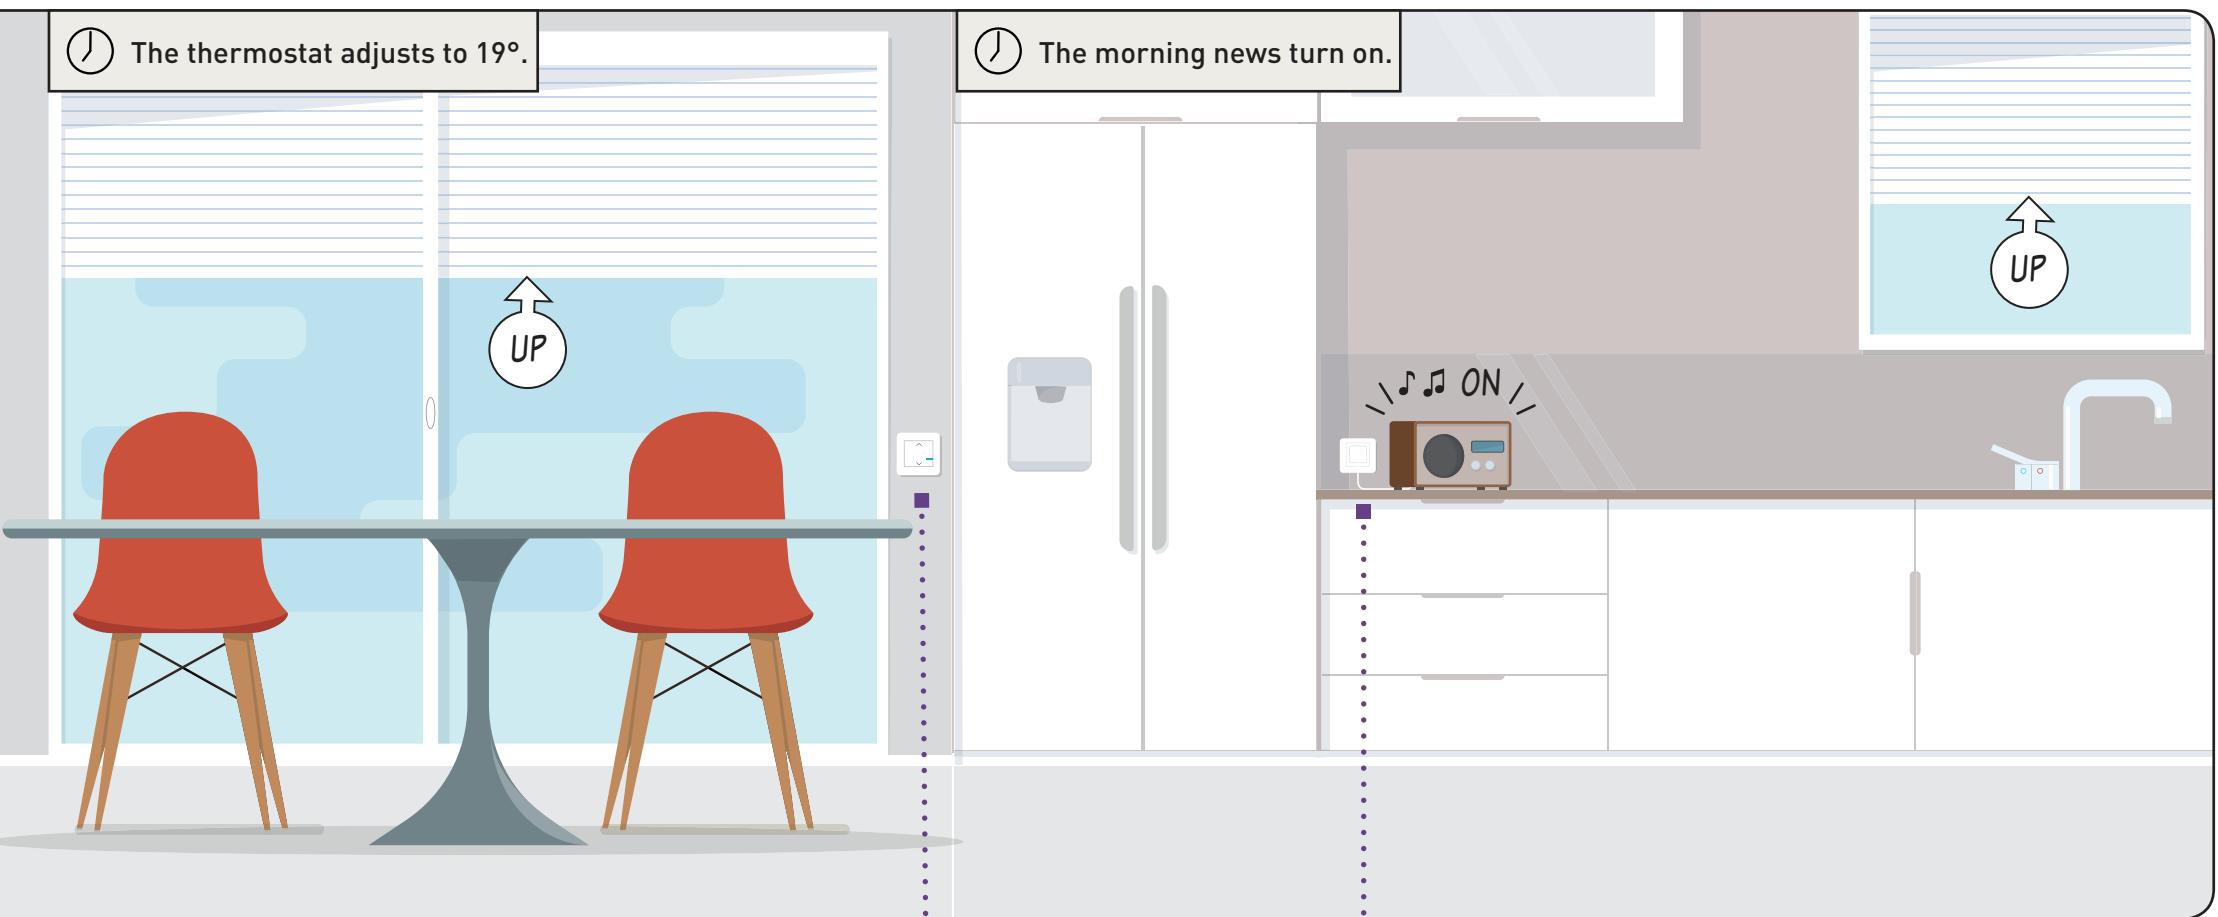

LEGRAND® SMARTHER THERMOSTAT

Day and night, room by room, the temperature adjusts according to your scenarios.

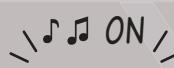

Switch to Day mode without leaving your bed.

When you wake up, simply push the Wake-up switch to launch the morning life scene you've set up.

⌚ The thermostat adjusts to 19°.

⌚ The morning news turn on.

CONNECTED ROLLER SHUTTER SWITCH

Watch all your roller shutters open automatically. Or control the opening and closing of each of your shutters with their individual switches.

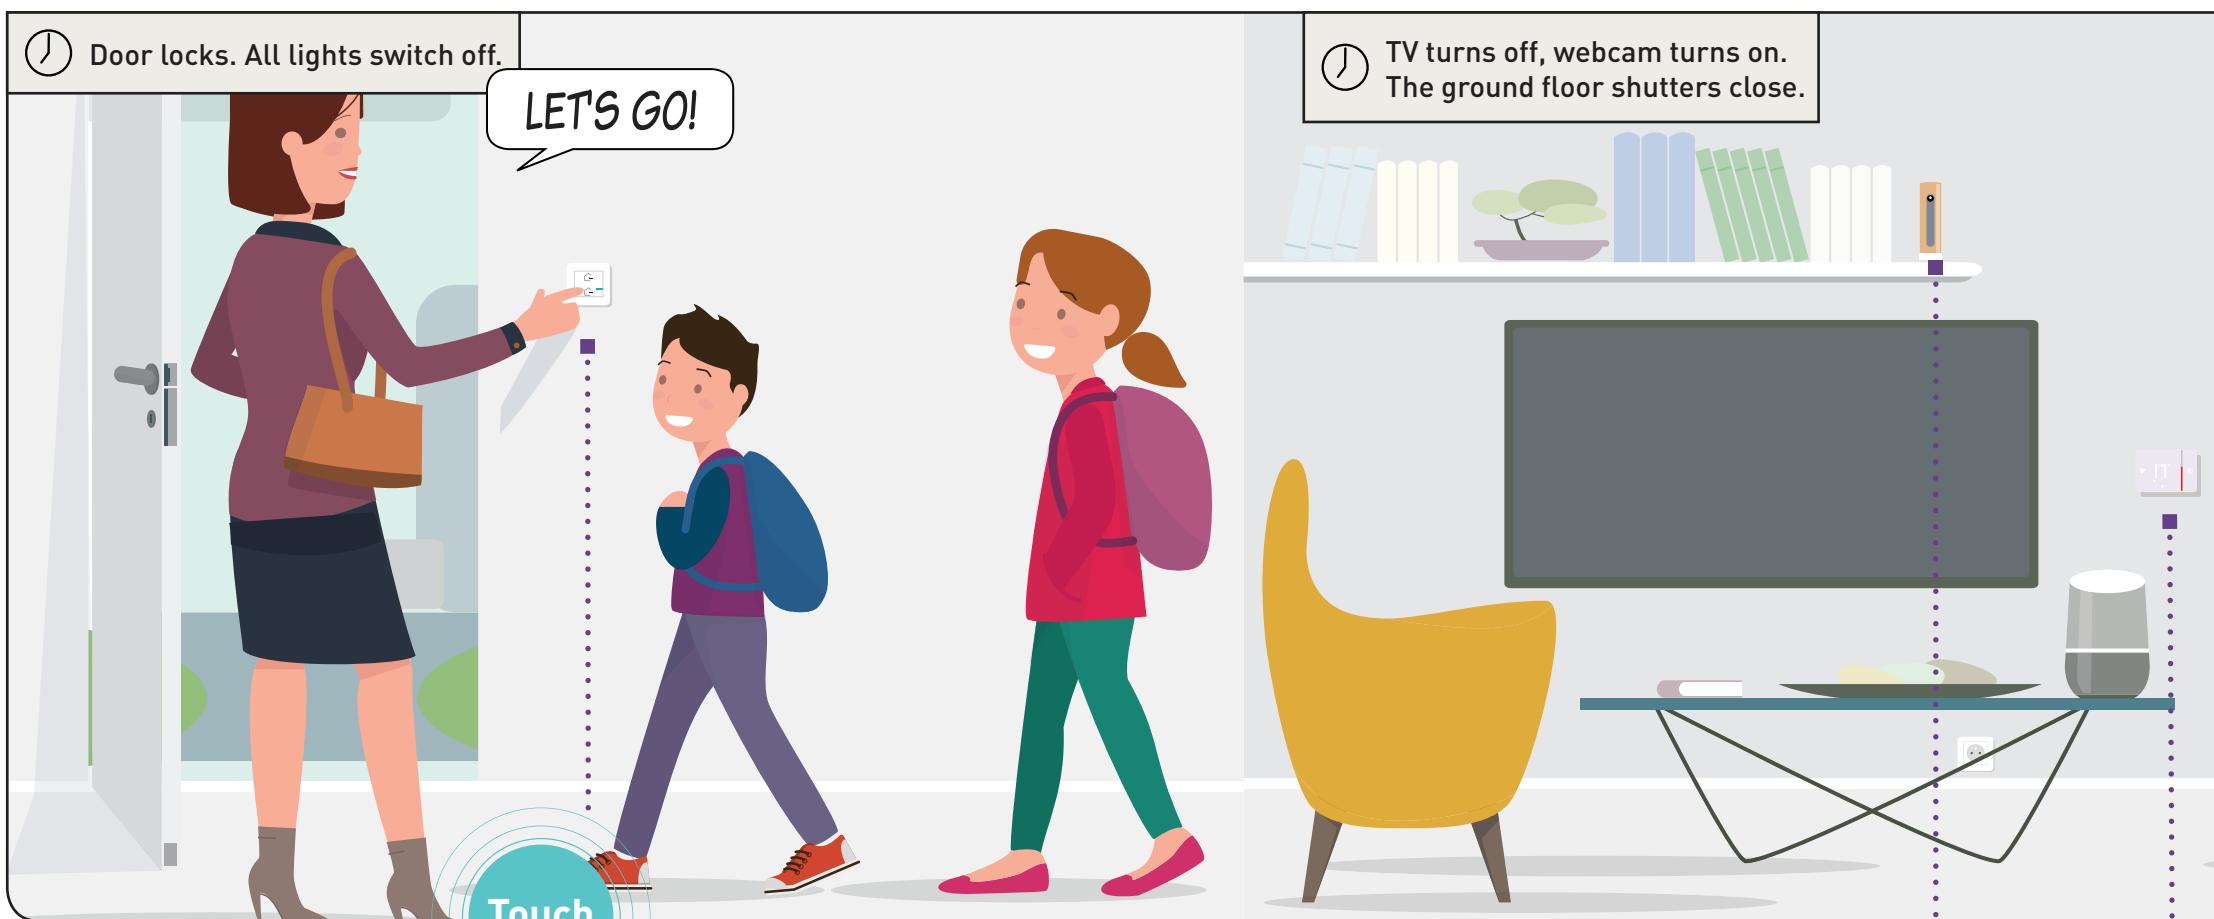

CONNECTED POWER OUTLET

Your TV and radio turn on every morning for your breakfast.

Life scene 2

**TIME
TO GO**

I'M LEAVING THE HOUSE

Touch

HOME / AWAY WIRELESS MASTER SWITCH

Launch your leave home scenario with a single touch on the wireless switch. All lights switch off...

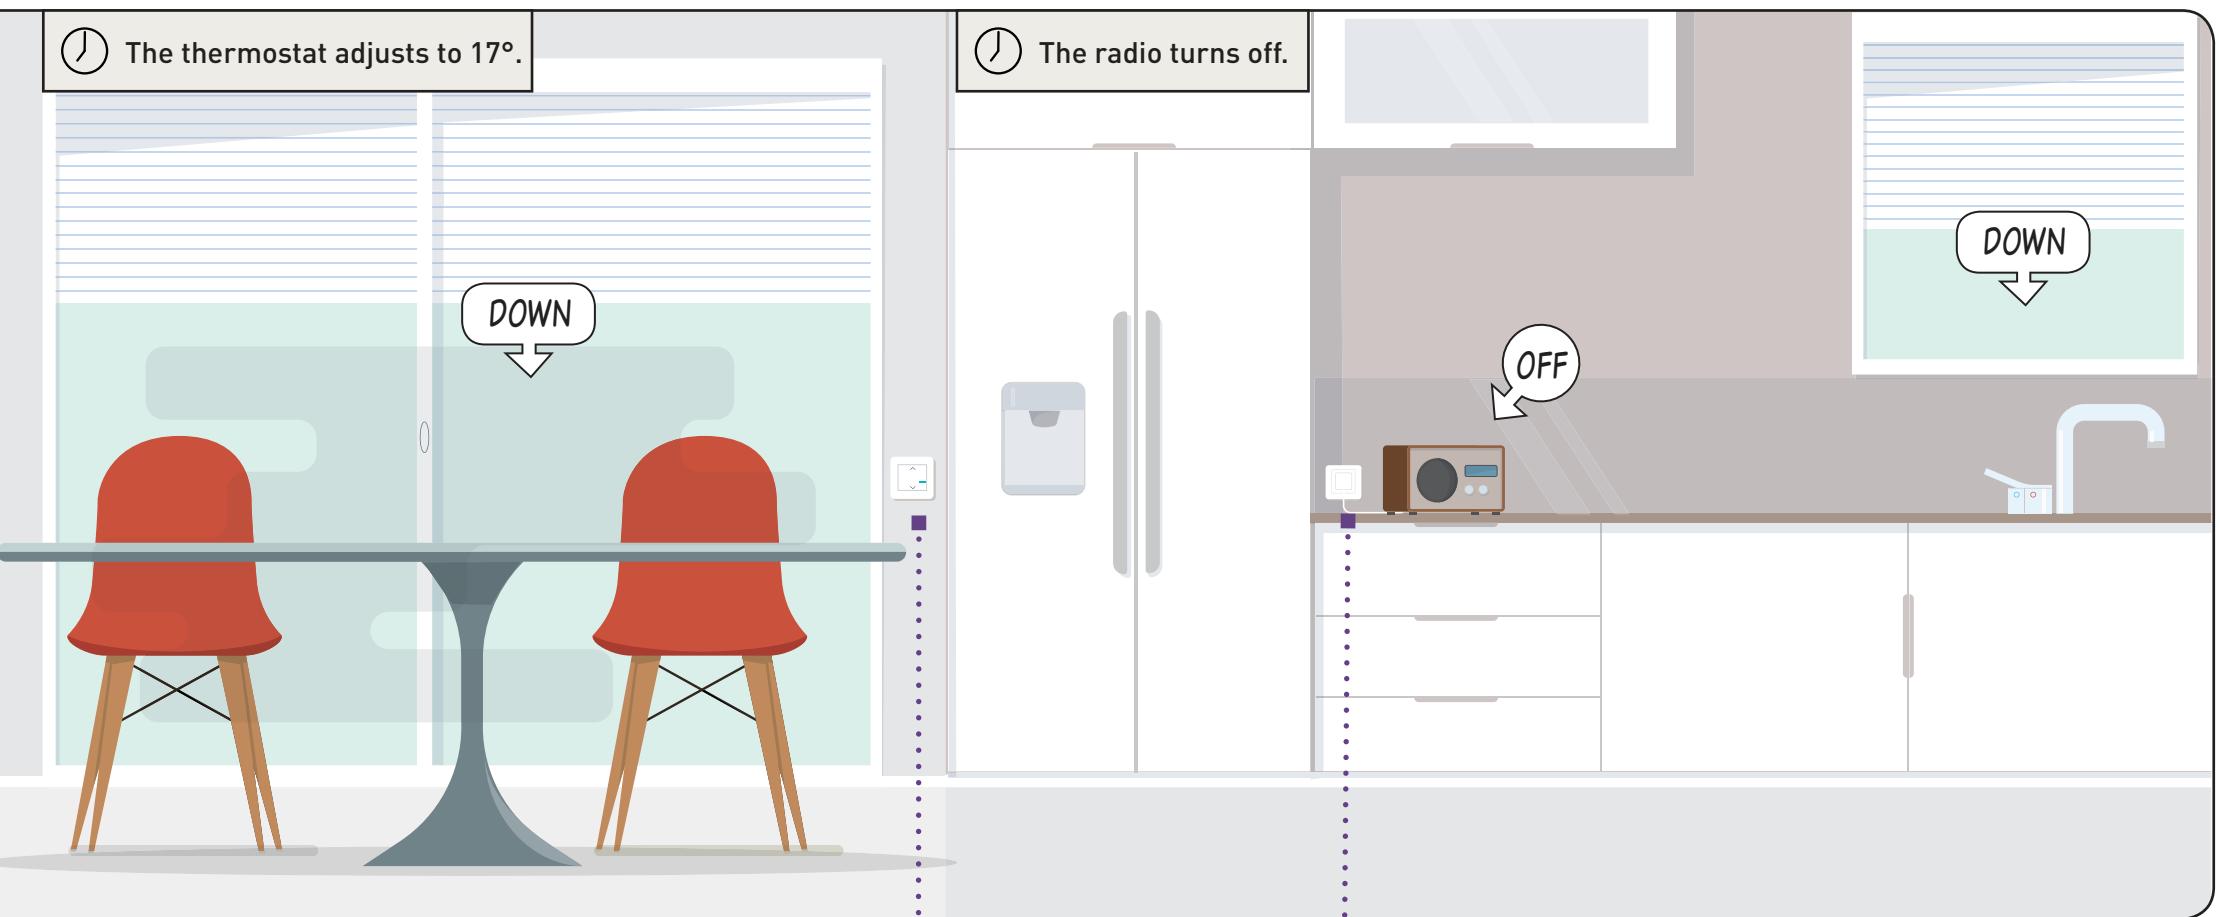

NETATMO WELCOME CAMERA

Your video surveillance camera turns on, ready to alert you of any intrusions.

Control your home with a single touch.

When you leave home, one touch on your Valena™ Life/Allure with Netatmo wireless master switch launches your life scene. It can also be activated by voice or from your fingertips with your tablet or smartphone.

LEGRAND® SMARTER THERMOSTAT

When everybody leaves, the thermostat adjusts temperature down to 17°. It's better for your energy bill and for the planet.

CONNECTED ROLLER SHUTTER SWITCH

All your ground floor shutters close. Your home is protected.

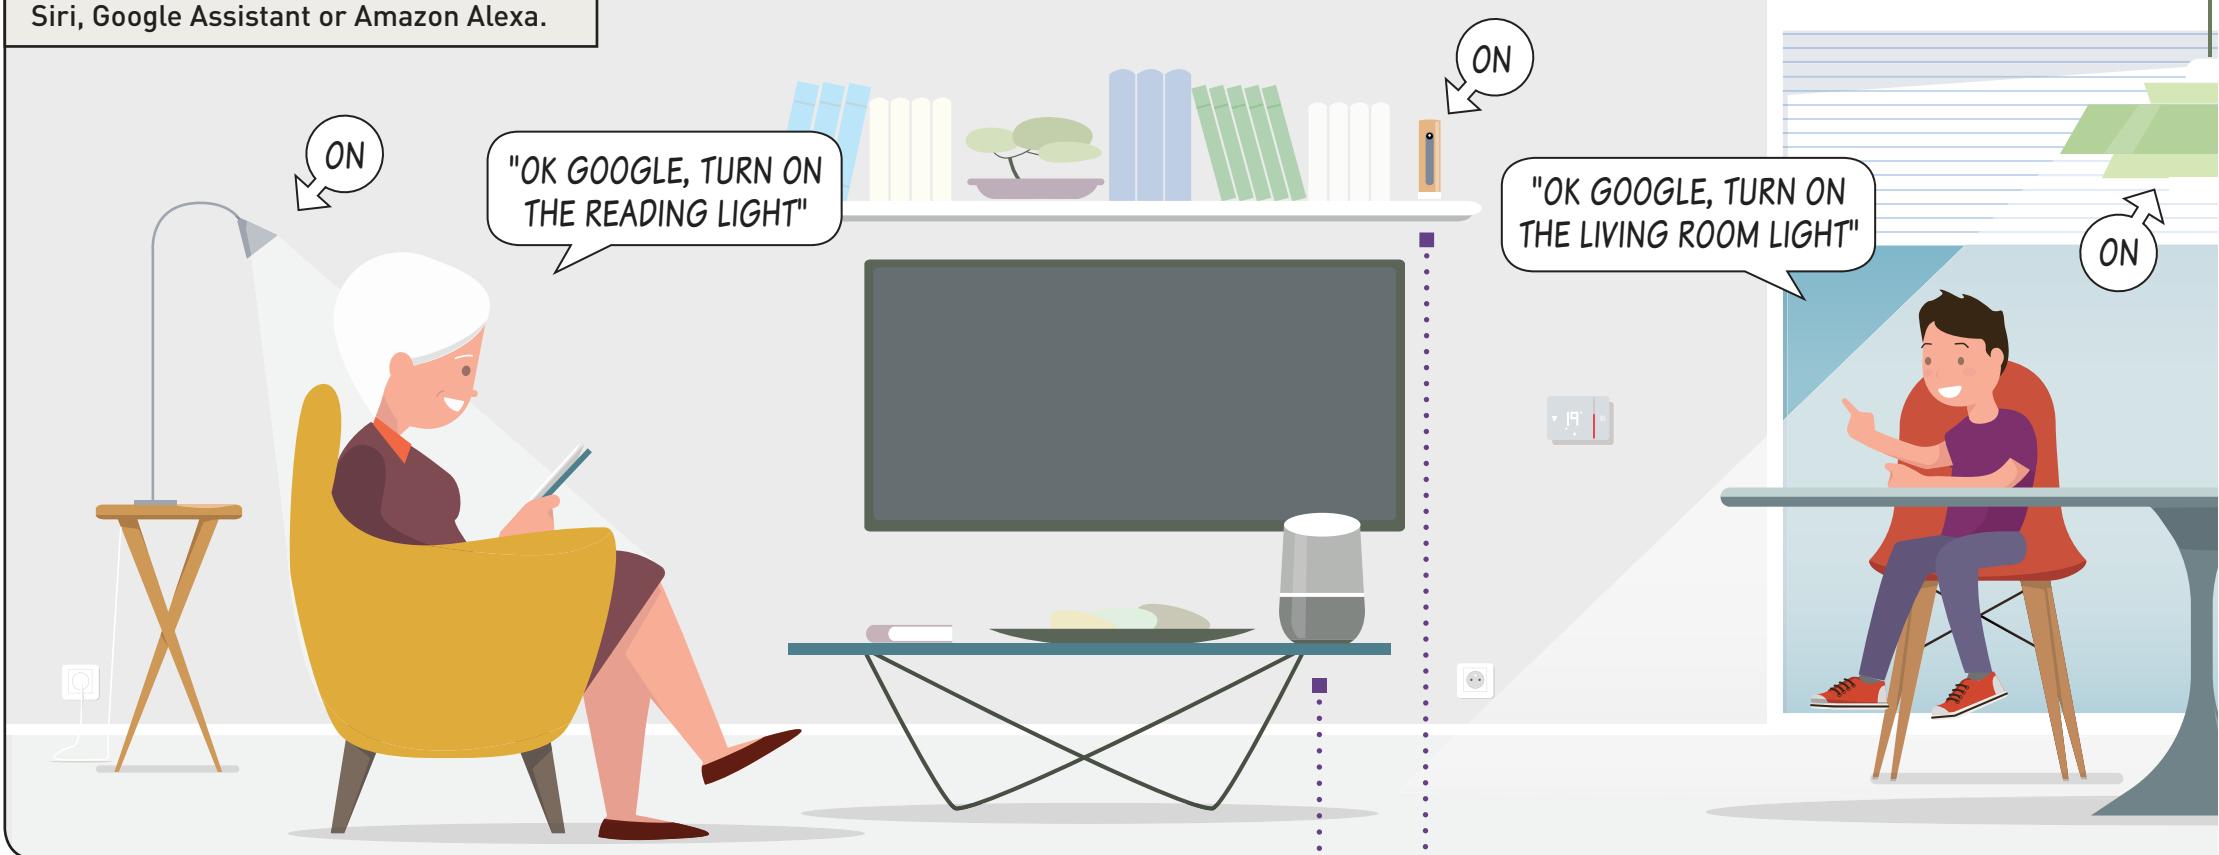

CONNECTED POWER OUTLET

TV, radio, computer... Your electronics turn off, waiting for your come back to restart.

Life scene 3
TIME TO CARE

I'M MAKING THE FAMILY COMFORTABLE

Control lights or appliances by voice with Siri, Google Assistant or Amazon Alexa.

works with the Google Assistant

WORKS WITH alexa

Works with Apple HomeKit

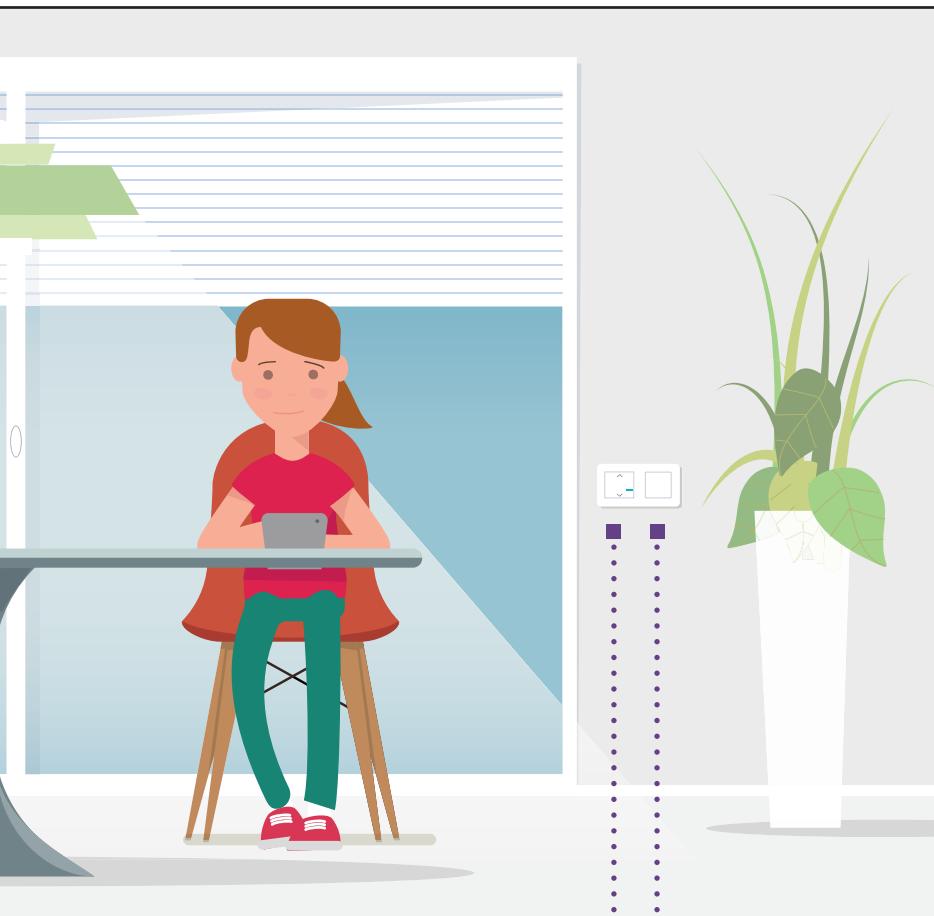

NETATMO WELCOME CAMERA

Check on your children doing their homework on your smartphone.

Being far from a switch or far from home does not mean being out of control.

Siri, Alexa, Google Assistant or the Home + Control application allows you to manage all your connected lights, shutters and appliances.

At work, watch your children do their homework on your smartphone.

CONNECTED ROLLER SHUTTER SWITCH

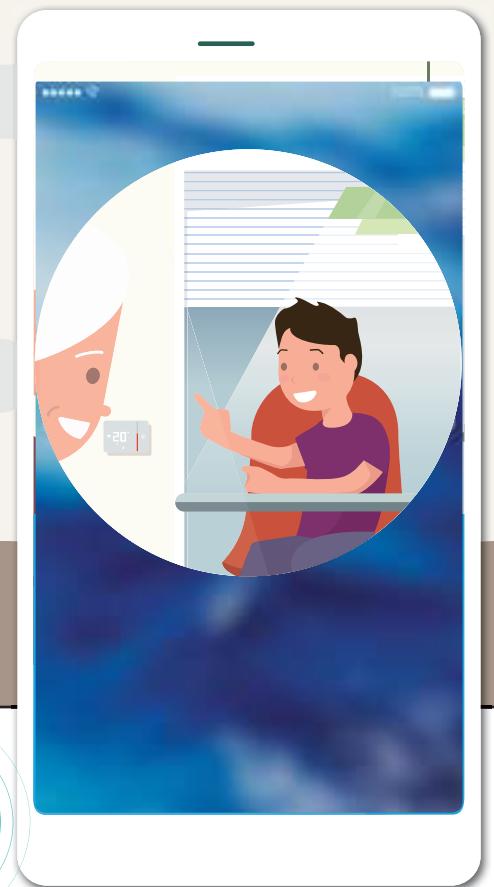

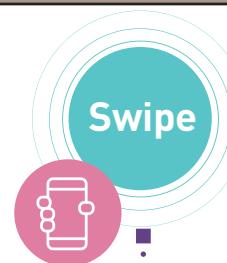

You can control each of your roller shutters by voice or with their individual switch.

CONNECTED LIGHT SWITCH (WITH DIMMER OPTION)

You can control your lights locally, by voice or remotely on your smartphone, tablet or laptop.

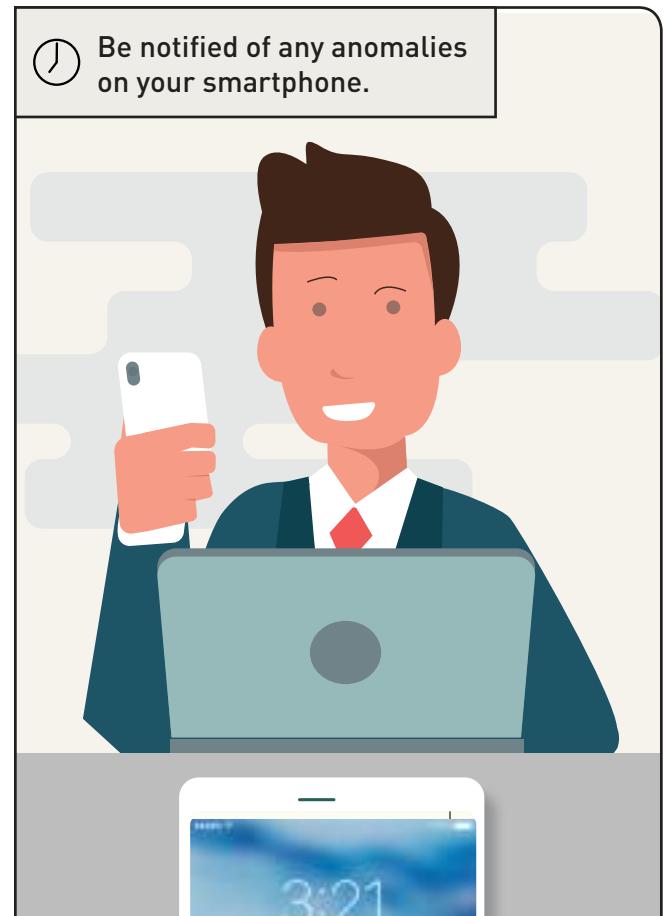

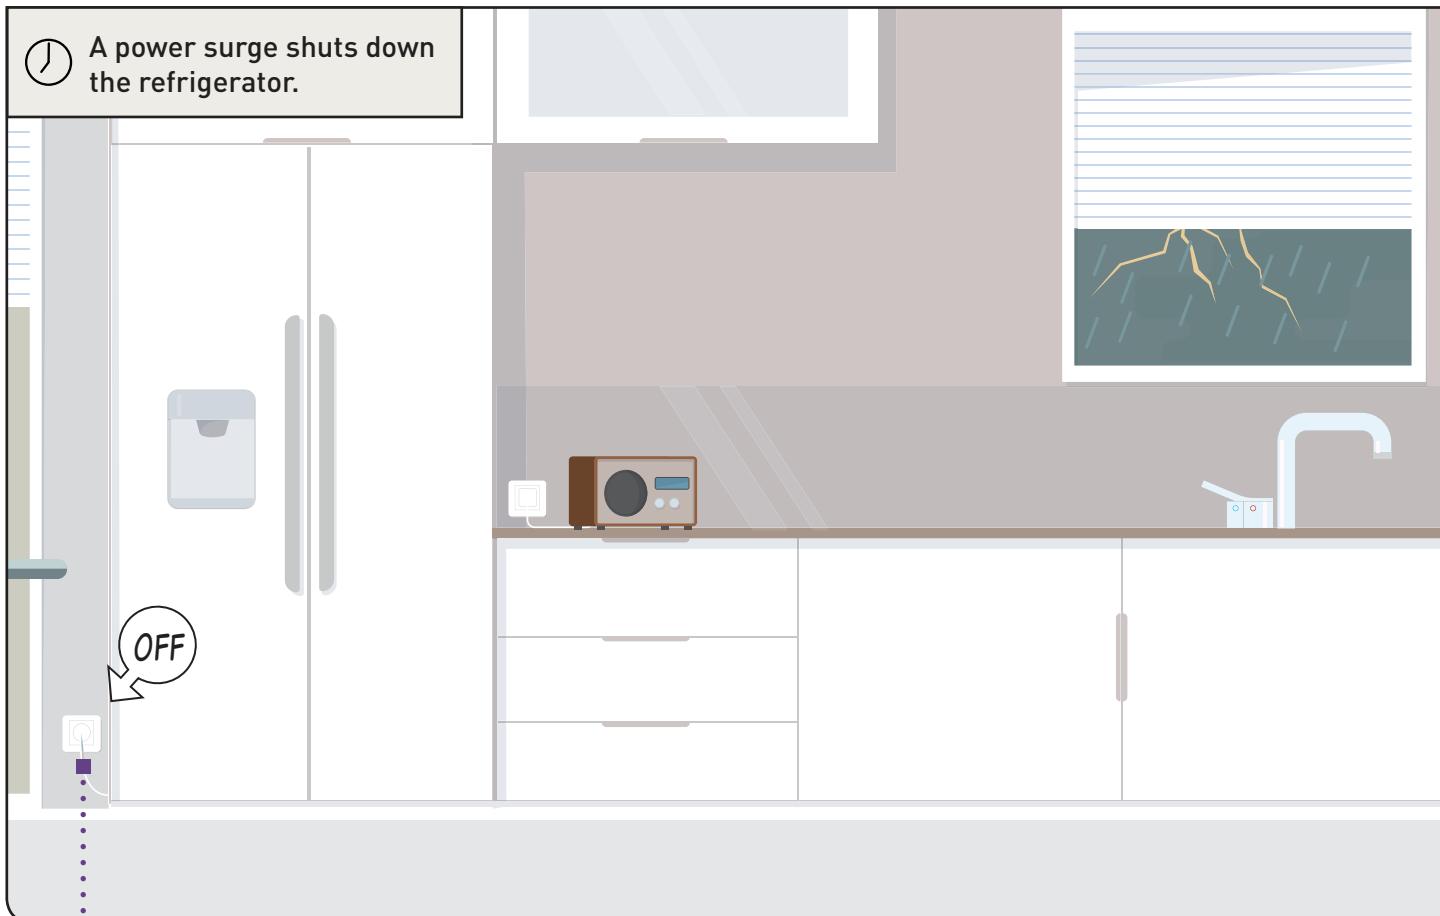

With a dimmable source, you can choose the option dimmer on your app Home + Control..

THE HOME + CONTROL APP
Keep an eye on your home with your smartphone.

I'M AWAY BUT STILL CONNECTED

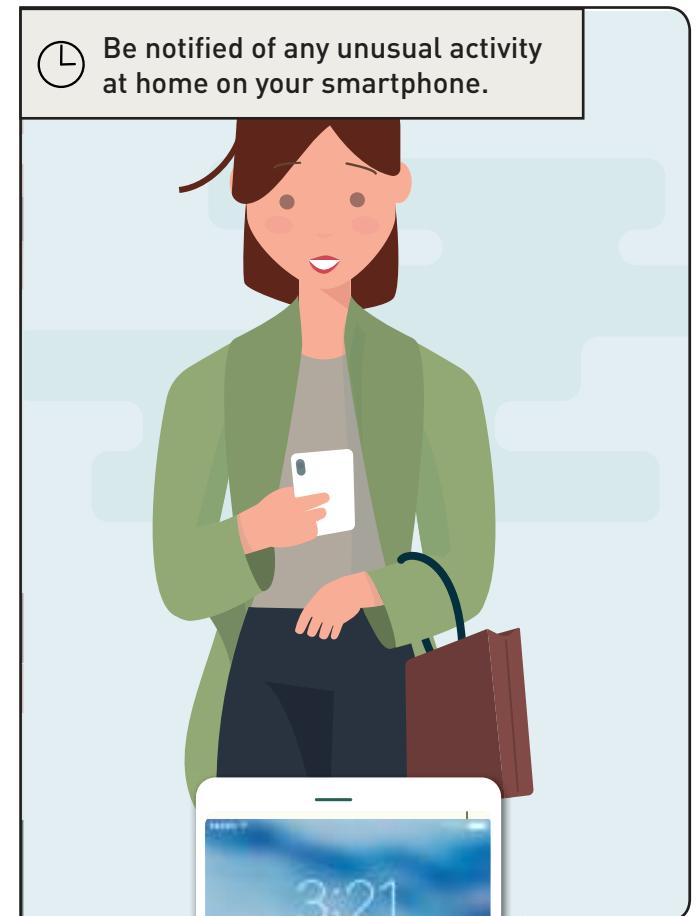

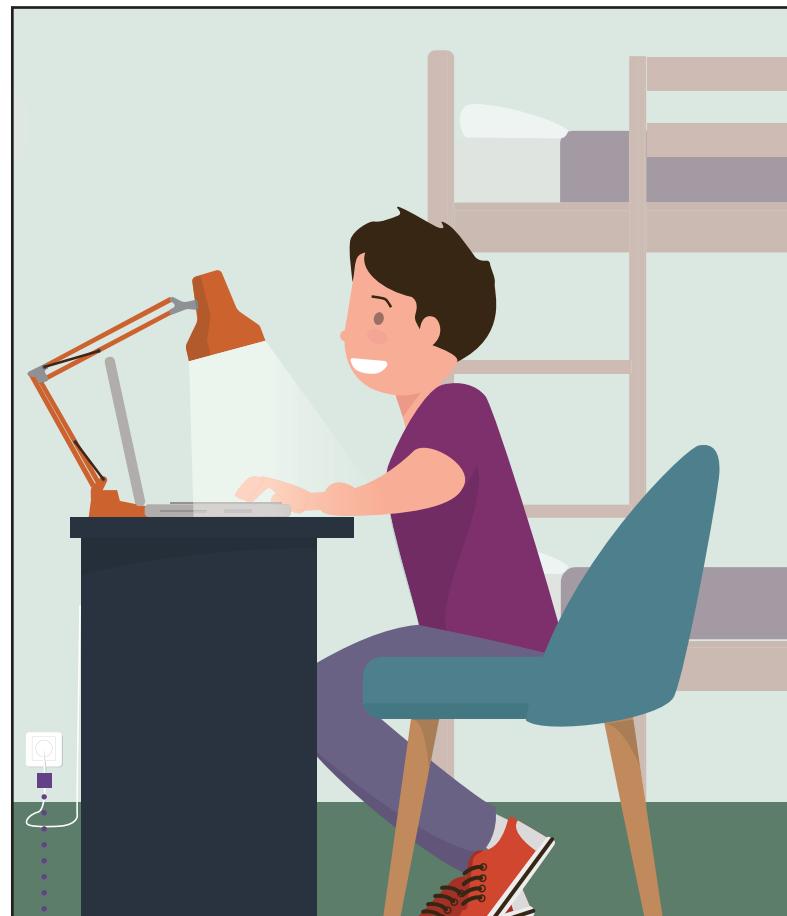

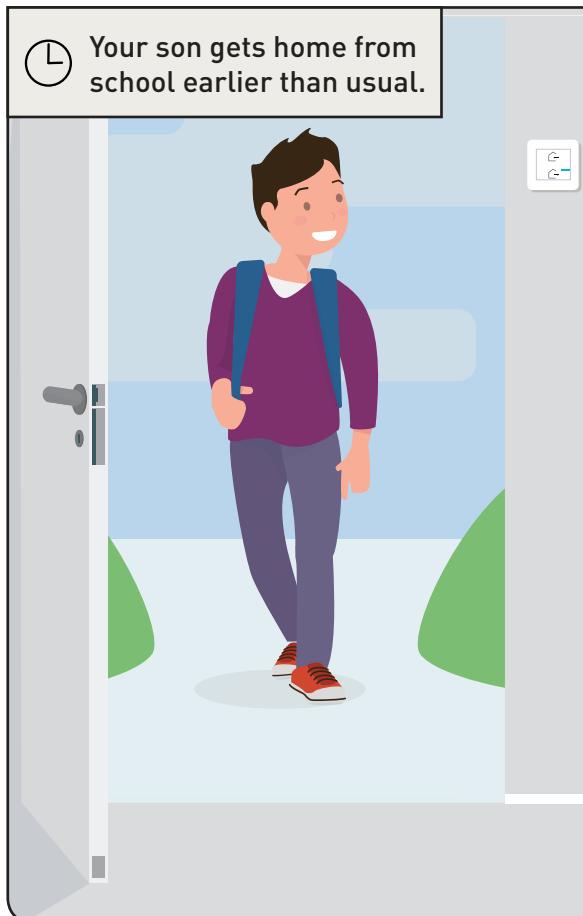

CONNECTED POWER OUTLET

With the connected outlet, be notified of any anomalies.

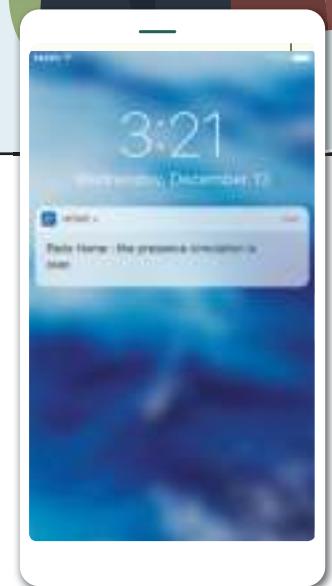

Even when you aren't there, Valena™ Life/Allure with Netatmo watches over your home.

If ever there's a problem, such as a power failure or overconsumption, you are immediately informed on your smartphone. And you'll be the first to know if someone comes back home early.

CONNECTED POWER OUTLET

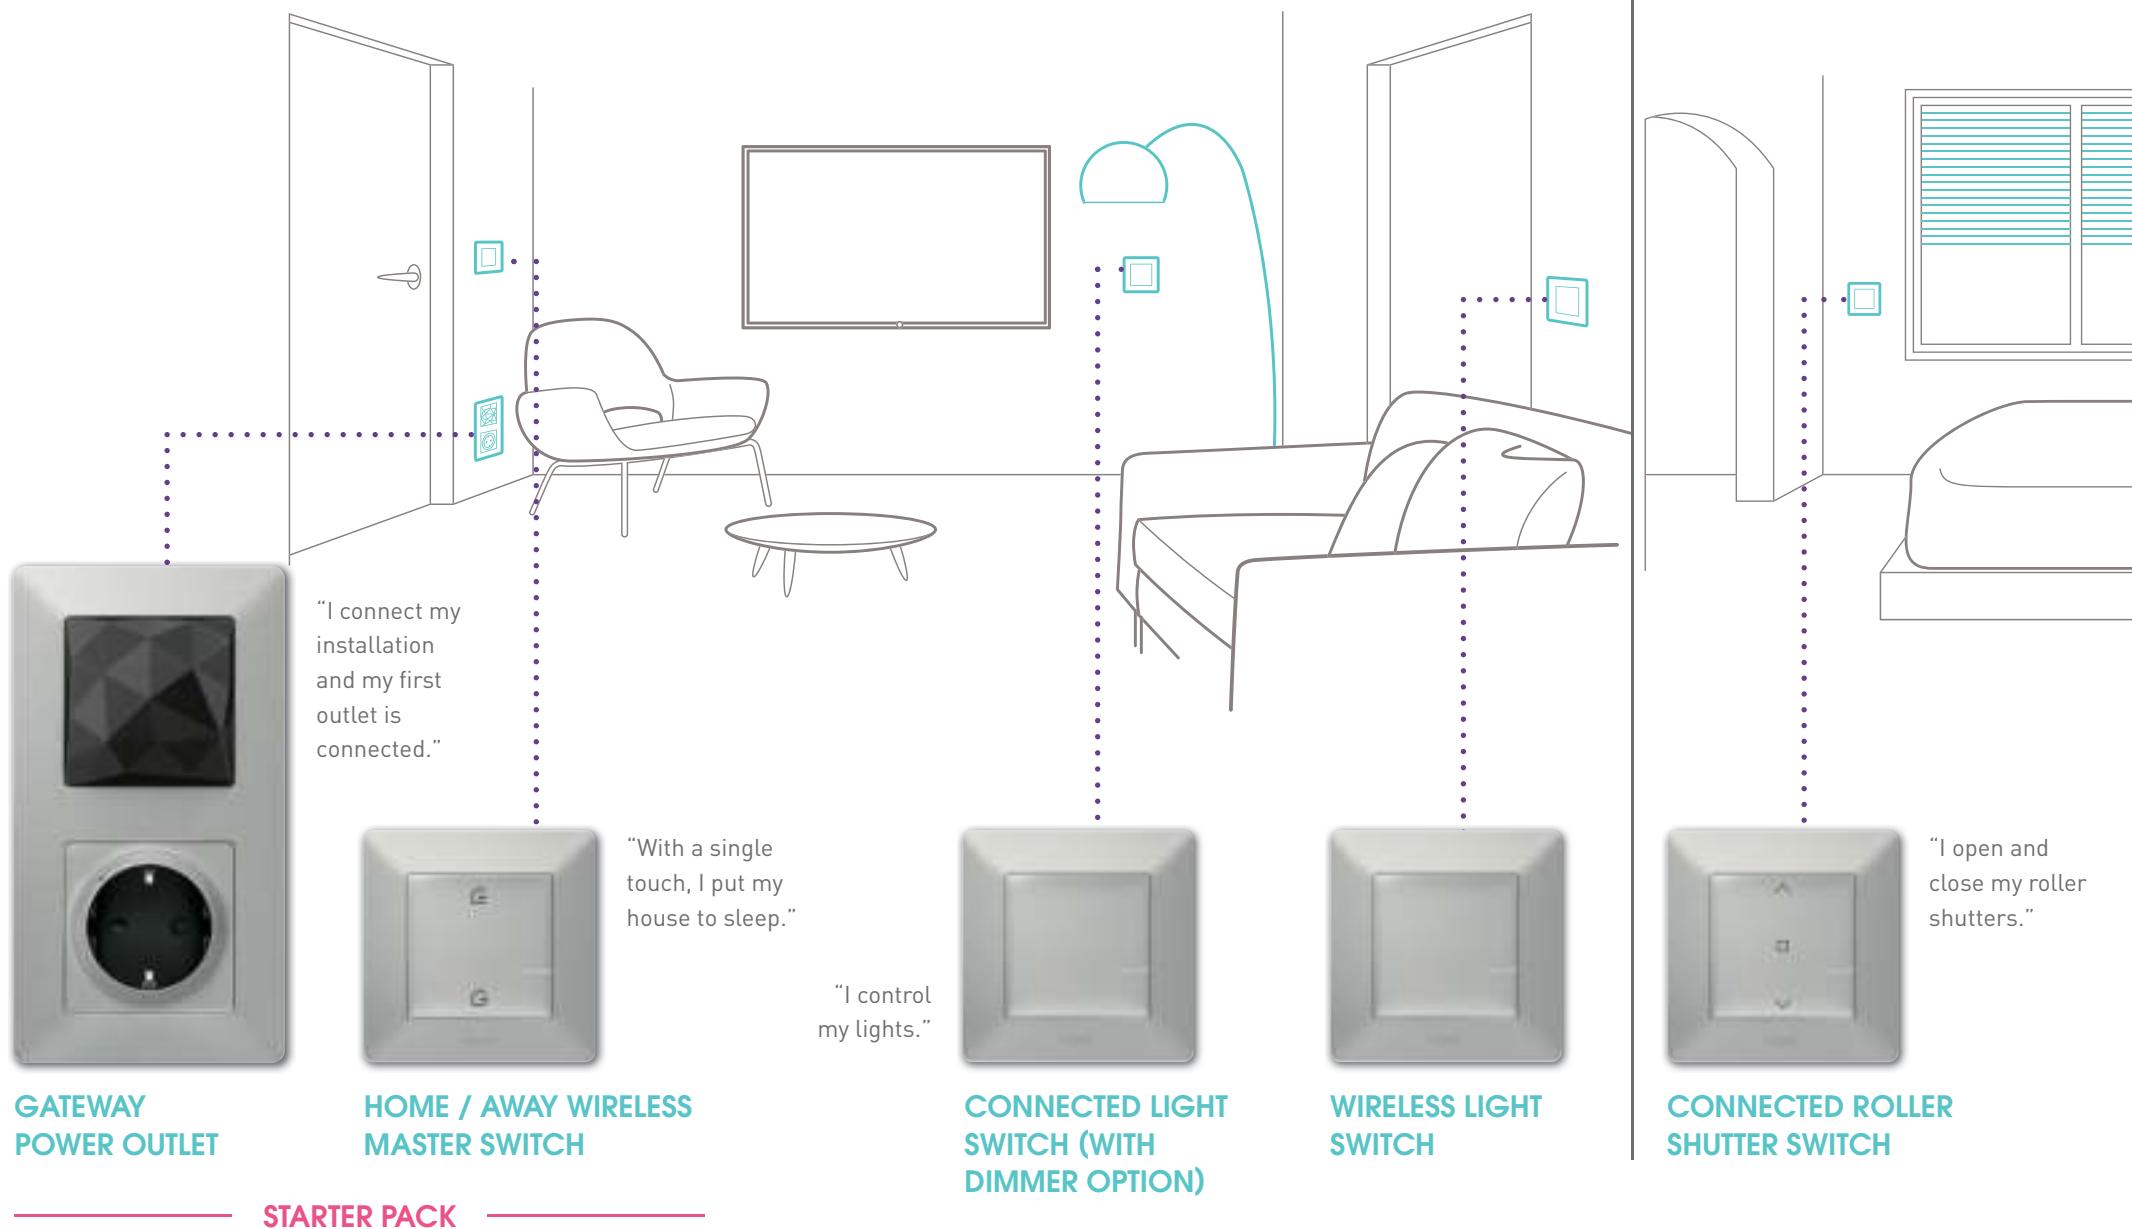

This connected outlet informs you of any unusual consumption, such as if the computer is turned on in your son's room when he should be at school.

MY HOME SIMPLY CONNECTED

1

I CONNECT MY FIRST ROOM
WITH THE STARTER PACK.

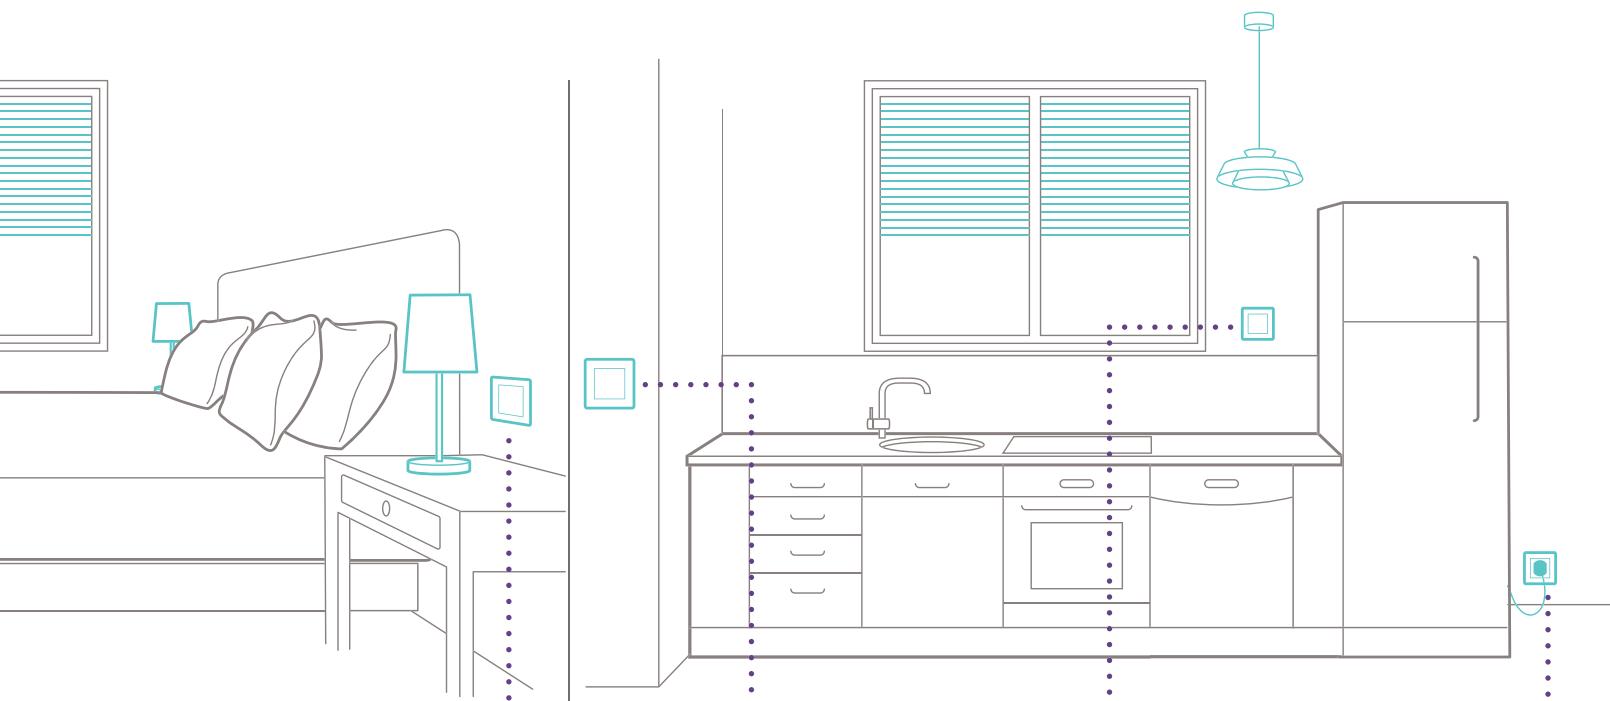

Valena™ Life/Allure with Netatmo fits all homes, existing and new.

A modular and evolutive system adapted to your needs.

2

WITH THE EXTENTION PACK AND THE UNIT PACKS, I EXTEND MY INSTALLATION...

WAKE UP / SLEEP WIRELESS SWITCH

"At bedtime, I put my house to sleep with a single touch (roller shutters, lights)."

CONNECTED LIGHT SWITCH (WITH DIMMER OPTION)

WIRELESS LIGHT SWITCH

"I monitor my electrical appliances."

CONNECTED POWER OUTLET

3

I CONTROL MY CONNECTED HOME...

... with a switch
a wireless control or a connected switch,

... with my smartphone
at home or away

... with my voice
using a voice assistant (such as Alexa, Siri or Google Assistant).

EVERYTHING YOU NEED FOR A CO

THE STARTER PACK

GATEWAY POWER OUTLET

connects to your internet box via wi-fi, so you can control your lights, home appliances and roller shutters locally or remotely using smartphone and voice assistant. Practical and aesthetic, it's wired and available as a traditional outlet.

HOME / AWAY WIRELESS MASTER SWITCH

allows you to control the turning on and off of lights and connected outlets. To, for example, create scenarios for when you arrive and leave home.

ADDITIONAL WIRED PRODUCTS

CONNECTED LIGHT SWITCH (WITH DIMMER OPTION)

replaces a traditional switch. It enables you to control directly or remotely, by smartphone and voice assistant, any type of load from 5 to 300W, including LEDs. You can choose the option dimmer via the app if you have dimmable sources. You can also decide if you want to enable the option locator light in your switch.

ADDITIONAL WIRELESS PRODUCTS

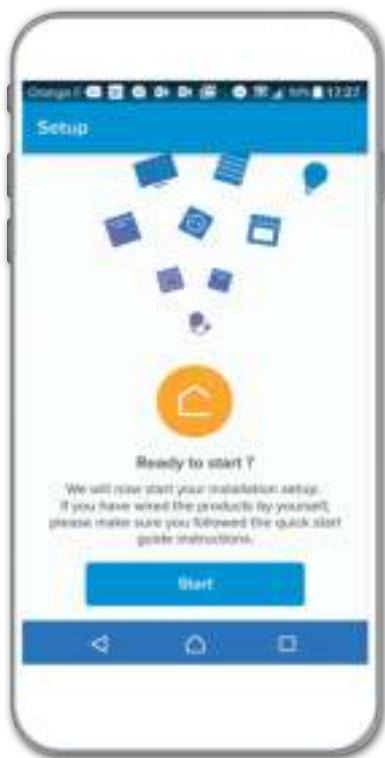

WIRELESS LIGHT SWITCH

enables you to add a control point without wiring or damaging the walls. Extra-flat and flush, it is repositionable at any time. It controls connected lights and outlets.

CONNECTED HOME

THE HOME + CONTROL APP.

Free and intuitive, the Home + Control app allows you to customize your life scenes.

CONNECTED ROLLER SHUTTER SWITCH

replaces a traditional roller shutter switch (electronic or mechanical stop) and enables you to control directly or remotely, by smartphone or voice assistant, the shutters.

CONNECTED POWER OUTLET 16A

replaces a traditional outlet and enables you to remotely control electrical devices, track their consumption and be notified via the Home + Control app in case of an abnormal event.

CONNECTED LIGHTING MICROMODULE

allows you to create a new point of control without any works. Just install the micromodule next to the source and associate a wireless light switch.

ROLLER SHUTTER WIRELESS SWITCH

makes it possible to create a control of centralization of shutters without wiring and without damaging the walls. Extra-flat and flush, it is repositionable at any time.

WAKE UP / SLEEP WIRELESS SWITCH

allows you to custom scenes when the sun rises and sets. Open the shutters, turn on the lights, turn on the radio or TV, adjust the temperature, all with one button.

ALL PRODUCTS ARE AVAILABLE
IN VALENA™ LIFE
AND VALENA™ ALLURE.

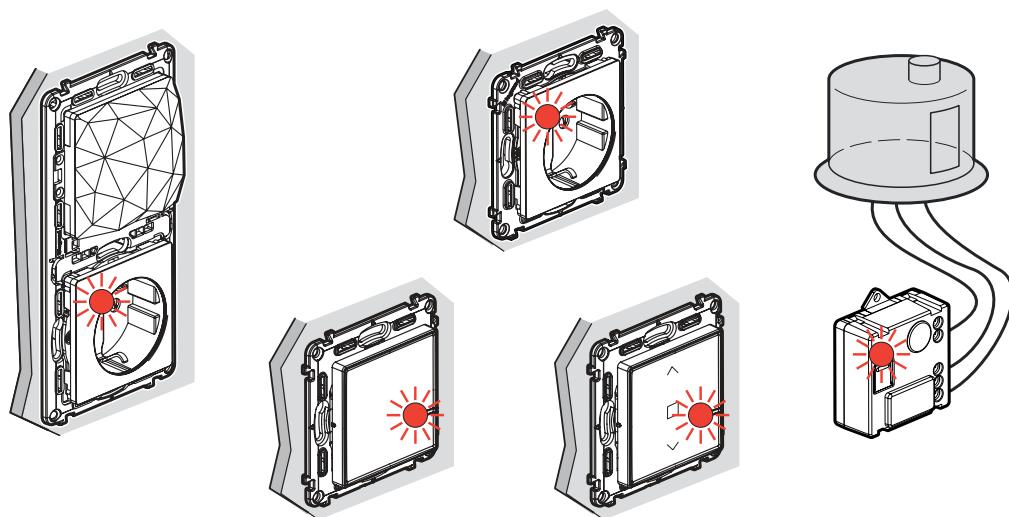

ENJOY YOUR CONNECTED HOME

CREATE THE NETWORK

STEP 1:

POWER YOUR GATEWAY AND YOUR WIRED SWITCHES AND OUTLETS

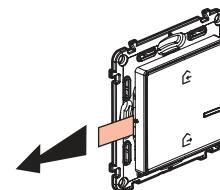

Switch off the main circuit breaker. Once you've installed the gateway and the wired switches and outlets, restore the power.

→ The LEDs on your products glow red.

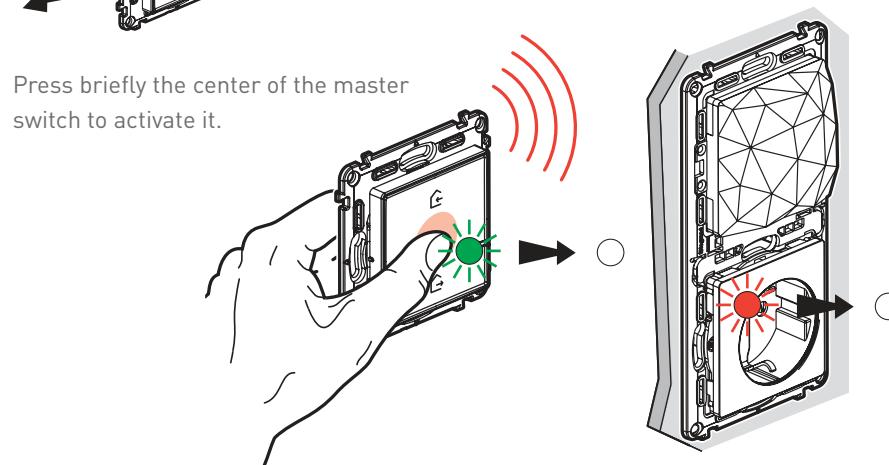

STEP 2:

TURN ON YOUR WIRELESS MASTER SWITCH

Remove the battery's protective strip to power the wireless general control.

Press briefly the center of the master switch to activate it.

→ Its LED flashes green then turns off.

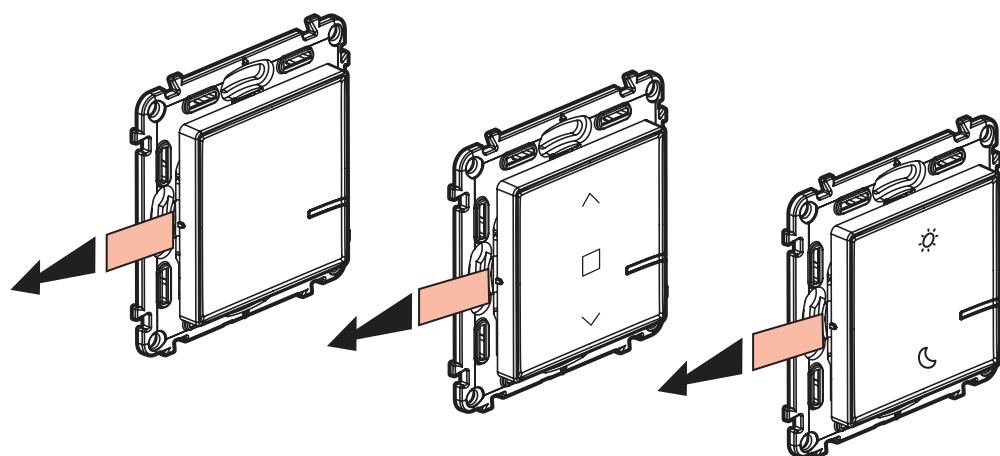

→ The LED of your connected gateway also turns off.

ASSOCIATE THE WIRELESS CONTROLS

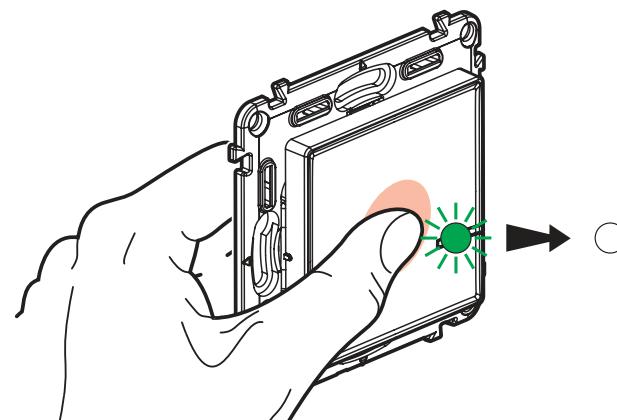

STEP 4:

ACTIVATE YOUR WIRELESS CONTROLS

Remove the protective strip from each of the wireless controls.

Briefly press each of the wireless controls to activate them.

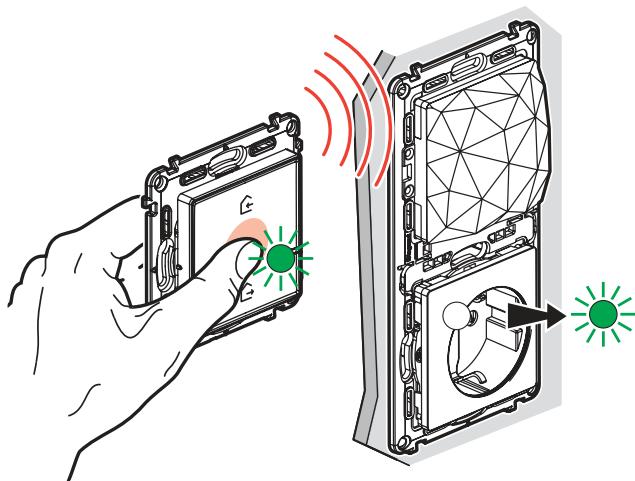

→ Its indicator light flashes green then goes off.

N 5 MINUTES

STEP 3:

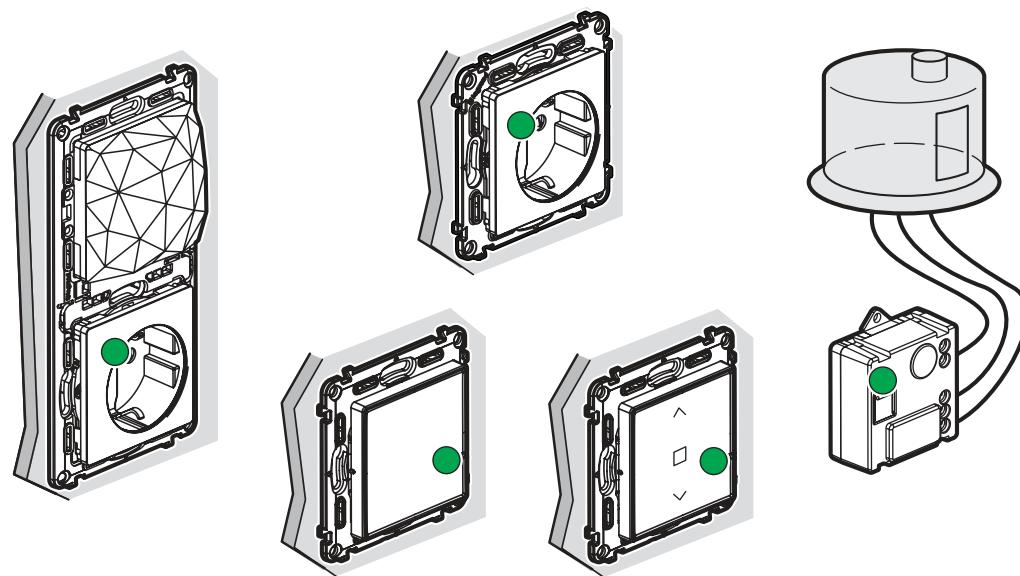

CONFIGURE YOUR WIRED SWITCHES AND OUTLETS

Press the center of the wireless master switch until the indicator briefly glows green, then release the button.

→ The lights of your products turn, one after the other, to a steady green.

PUSH ONE BUTTON; EVERYTHING IS CONNECTED!

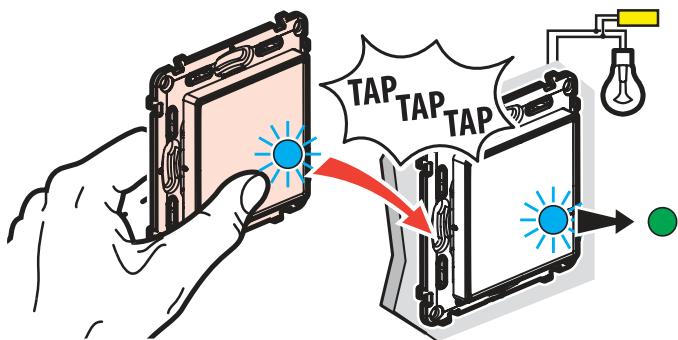

→ The lights on both products flash blue, turn briefly to solid blue, and then green.

STEP 5:

PAIR YOUR WIRELESS SWITCHES

Hold down your finger on center of the switch and tap 3 times on the wired connected switch you wish to link to the control.

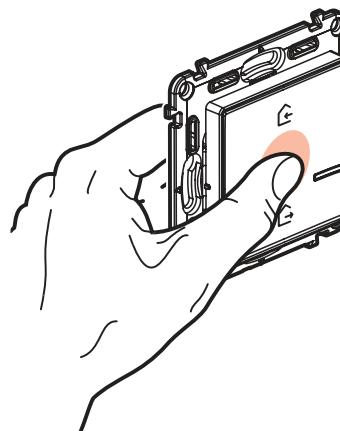

The LEDs of the 2 products flash blue and then light up in solid blue. The wireless control indicator goes off and the connected switch indicator turns green.

STEP 6:

TO COMPLETE YOUR INSTALLATION

Briefly press the middle of the wireless general control.

→ All the indicator lights on the products switch off.
